What makes everybody connected?

This summer is focused on the things students value. How do people label you? What is it that you love about yourself? How are you emotionally connected to art? What makes everybody a hero? We will be focusing on the positive affirmations art brings to students. Each class will also focus on the seven elements of art (line, shape, space, value, form, texture, and color) which are the building blocks of art, as well as, the principles of design (balance, contrast, emphasis, movement, pattern, rhythm, and unity) which represent how the artist uses the elements of art to convey the artist's intent. Connecting all of these things to the histories of art and artists' disciplines.
